

QUESTION 1

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

What is the Net Profit Margin for XYZ Limited in FY 2025?

Answer is Correct

Score: 1 / 1

Options

☒ A. 8.44%

Correct

☐ B. 11.25%

☐ C. 13.75%

☐ D. 6.50%

 FEEDBACK

Explanation: Profit Margin = (Net Profit / Revenue) * 100

Calculation: $(3,375 / 40,000) * 100 = 8.4375\%$, which rounds to 8.44%.

QUESTION 2

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Calculate the Return on Assets (ROA) for the year.

Answer is Correct

Score: 1 / 1

Options

- ☐ A. 8.44%
- ☐ B. 27.00%

Correct

☒ C. 11.25%☐ D. 15.00% **FEEDBACK**

Explanation: Return on Assets (ROA) = (Net Profit / Total Assets) * 100

Calculation: $(3,375 / 30,000) * 100 = 11.25\%$.

QUESTION 3

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

What is the Return on Equity (ROE) generated by the company?

Answer is Correct

Score: 1 / 1

Options

☐ A. 11.25%

☒ B. 27.00%

Correct

☐ C. 30.50%

☐ D. 22.00%

 FEEDBACK

Explanation: Return on Equity (ROE) = (Net Profit / Total Shareholder's Equity) * 100

Calculation: $(3,375 / 12,500) * 100 = 27.00\%$.

QUESTION 4

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Assuming average debtors are equal to the year-end debtors, what is the Debtors Turnover Ratio?

Answer is Correct

Score: 1 / 1

Options

☐ A. 8.00 times

☒ B. 10.00 times

Correct

- ☐ C. 12.00 times
- ☐ D. 14.00 times

 FEEDBACK

Explanation: Debtors Turnover Ratio = Revenue / Debtors

Calculation: $40,000 / 4,000 = 10.00$ times.

QUESTION 5

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Calculate the Dividend Yield based on the current market price.

Answer is Correct

Score: 1 / 1

Options

☒ A. 1.33%

Correct

☐ B. 2.50%

☐ C. 3.47%

☐ D. 4.00%

 FEEDBACK

Explanation: Dividend Yield = (Dividend Per Share / Market Price) * 100

Calculation: $(2.00 / 150) * 100 = 1.33\%$.

QUESTION 6

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Calculate the Asset Turnover Ratio.

Answer is Correct

Score: 1 / 1

Options

☐ A. 1.50 times

☒ B. 1.33 times

Correct

- ☐ C. 2.00 times
- ☐ D. 0.85 times

 FEEDBACK

Explanation: Asset Turnover Ratio = Revenue / Total Assets

Calculation: $40,000 / 30,000 = 1.333$ times (rounded to 1.33).

QUESTION 7

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Based on the Cost of Materials Consumed, what is the Inventory Turnover Ratio?

Answer is Correct

Score: 2 / 2

Options

☐ A. 11.42 times

☐ B. 10.00 times

Correct

☒ C. 8.00 times☐ D. 6.50 times **FEEDBACK**

Explanation: Inventory Turnover Ratio = Cost of Materials Consumed / Inventory

Calculation: $28,000 / 3,500 = 8.00$ times.

QUESTION 8

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

What is the Earnings Per Share (EPS) XYZ Limited?

Answer is Correct

Score: 2 / 2

Options

☒ A. ₹6.75

Correct

☐ B. ₹9.00

☐ C. ₹11.25

☐ D. ₹25.00

 FEEDBACK

Explanation: Earnings Per Share (EPS) = Net Profit / Total Number of Outstanding Shares. Since the Equity Share Capital is ₹500 Crores and the face value is ₹1, there are 500 Crore shares.

Calculation: $3,375 / 500 = ₹6.75$ per share.

QUESTION 9

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Using the EPS calculated in the previous question, what is the Price to Earnings (PE) Ratio?

Answer is Correct

Score: 2 / 2

Options

☐ A. 18.50

☐ B. 20.00

Correct

☒ C. 22.22☐ D. 25.40 **FEEDBACK**

Explanation: PE Ratio = Current Market Price / Earnings Per Share (EPS)

Calculation: $150 / 6.75 = 22.22$.

QUESTION 10

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Assess the solvency of the company by calculating the Debt-Equity Ratio.

Answer is Correct

Score: 2 / 2

Options

☐ A. 0.12

☒ B. 0.20

Correct

☐ C. 0.25

☐ D. 0.50

 FEEDBACK

Explanation: Debt-Equity Ratio = Total Debt / Total Shareholder's Equity

Calculation: $2,500 / 12,500 = 0.20$.

QUESTION 11

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

Based on the Profit & Loss statement, what is the EBITDA (Earnings Before Interest, Taxes, Depreciation, and Amortization) for XYZ Limited?

Answer is Correct

Score: 3 / 3

Options

☐ A. ₹4,500 Crores

Correct

- ☒ B. ₹5,500 Crores
- ☐ C. ₹6,300 Crores
- ☐ D. ₹34,500 Crores

 FEEDBACK

Explanation: EBITDA = Revenue - (Cost of Materials + Employee Benefits + Other Expenses).

Calculation: $40,000 - (28,000 + 2,500 + 4,000) = 40,000 - 34,500 = ₹5,500$ Crores.

Alternatively: PBT (4,500) + Depreciation (800) + Finance Cost (200) = ₹5,500 Crores.

QUESTION 12

Case Study Assignment

Company Overview and Financial Statements

XYZ Limited is a leading manufacturer of commercial vehicles. Below are the simplified financial statements for the company for a Financial Year. You are required to analyze these statements to calculate key financial metrics and answer the questions that follow.

(Note: All figures are in Crores, except per-share data).

Simplified Profit & Loss Statement

Particulars	Amount (in Crores)
Revenue from Operations	40,000
Expenses:	
Cost of Materials Consumed	28,000
Employee Benefits Expense	2,500
Other Expenses	4,000
Depreciation	800
Finance Costs (Interest)	200
Total Expenses	35,500
Profit Before Tax (PBT)	4,500
Tax Expense	1,125
Net Profit / Profit After Tax (PAT)	3,375

Simplified Balance Sheet

Particulars	Amount (in Crores)
-------------	--------------------

Equity & Liabilities	
Equity Share Capital (Face Value ₹1)	500
Other Equity (Reserves)	12,000
Total Shareholder's Equity	12,500
Total Debt (Borrowings)	2,500
Other Liabilities	15,000
Total Equity & Liabilities	30,000
Assets	
Fixed Assets (Net Block + CWIP)	6,000
Inventory	3,500
Debtors (Trade Receivables)	4,000
Cash & Other Assets	16,500
Total Assets	30,000

Additional Market Information

Current Market Price per Share: ₹150.00

Dividend Declared per Share: ₹2.00

Note: Number of outstanding shares equals the Equity Share Capital (since Face Value is ₹1).

What are the total Operating Expenses (excluding depreciation and finance costs) for the company?

Answer is Wrong

Score: 0 / 3

Options

☐ A. ₹35,500 Crores

☐ B. ₹28,000 Crores

хрестеа

☐ C. ₹34,500 Crores

Wrong

☐ D. ₹30,500 Crores

 FEEDBACK

Explanation: Operating expenses exclude non-operating costs like finance costs and non-cash charges like depreciation.

Calculation: Total Expenses (35,500) - Depreciation (800) - Finance Costs (200) = ₹34,500 Crores.
